J. S. COSDEN IS BACK; DEALS ARE RUMORED

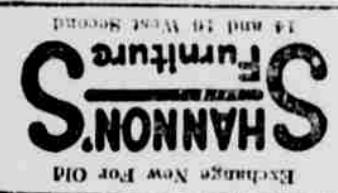

J. S. Cosden, head of the various Cosden companies, returned to Tulsa yesterday from New York, where he has been traveling to business and taking a brief vacation.

Commented E. H. Perry, counsel in one of his companies, who has been in New York for the past week: "Cosden has had his hands full trying to say about business deals, when rumors of peace on tap, but it is believed that some interesting arrangements will be made in the near future."

Cosden's stock, which like other independent oil stocks has risen a little recently, is in the market, probably responding to the fiction tendency in the price of crude oil and the strengthening of the machine

market. Both Cosden & Co. and Cosden Oil & Gas Co. are earning large dividends and are in shape to make big profits in the future, since the big expenditures in the refinery in Tulsa may have been completed leaving it the largest independent refiner in the country.

AT AUGUSTA, KAN.

The Mc-Man Oil Company No. 10 on the Kramer farm in 23-27-4, which came in last week at a 12,000 barrel gush, made out at the rate of 11,000 barrels in a three-hour gauge period.

The same company's No. 4 on the Foster farm in 23-27-4 is 59 feet in the sand and using 200 barrels an hour.

The No. 3 of Foster and others on the Foster farm in 23-27-4, practically offsetting the Kramer well, is drilling 150 barrels an hour.

The Prairie Oil & Gas Co. has made locations for Nos. 3 and 4 on the Bell farm in 23-27-4.

AT DEPEW

The important test on the Monitor Oil & Gas Co. in 23-27-4 got the top of sand, probably the thinner, in 2,855 feet and seven feet in is making 10,000 barrel per day.

Many dealers in gasoline, said Mr. Green, are not satisfied with the oil business because about making long time gasoline contracts for earlier lots at a time, at prices considerably above the present quotations. They need the gasoline right now, but apparently are unable to fill their demands.

E. D. Misener at Conneaut, Ohio, where the Misener had stopped en route home from a tour of the east, details of the cause of death are lacking. Mrs. Misener was well known to the oil fraternity and had always taken an active interest in her husband's development work at Broken Arrow in the Misener pool and elsewhere. The body was shipped to Ok City, Okla., where the funeral will be held tomorrow.

GREIS SAYS EAST DEMANDING GASOLINE

H. N. Greis, well-known independent oil producer, returned yesterday from an extensive tour by automobile of the east and brings back a deal of encouragement for the oil producer. According to Mr. Greis, there is a heavy demand for gasoline in the eastern part of the country than ever before. Stocks on hand are below the average he says.

Many dealers in gasoline, said Mr. Green, are not satisfied with the oil business because about making long time gasoline contracts for earlier lots at a time, at prices considerably above the present quotations. They need the gasoline right now, but apparently are unable to fill their demands.

AT EL DORADO, KAN.

The Sinclair Oil & Gas Co. first deep test on the Linn farm in 23-26-5 has been drilled in and is reported good for 1,000 barrels.

The Sinclair company test on the Bell farm in 23-26-5 is drilling at 2,700 feet.

The Mexican Oil Company test on the Porter farm in 23-26-5 is making 5,000 barrel per day at 1,278 feet and they are putting the latter back.

Wise and Powell are drilling at 2,450 feet in their test on the Bell farm in 23-26-5.

The Texaco Oil & Gas Co. test on the Shirley farm in 16-28-4 is drilling at 2,100 feet.

The Standard Oil Company test on the Shirley farm in 16-28-4 is drilling at 2,300 feet.

MRS. MISENER DEAD.

The Wichita Natural Gas Company No. 2 on the Davis farm in 23-27-8 is underdrilling at 2,000 feet.

The Continental Oil & Gas Co. No. 1 on the E. C. Varner farm in 17-28-4 is good for 200 barrels.

The test of the epoxy Oil & Gas Co. on the Charles Brown farm in 23-28-4 is now rated as a 100-barrel well.

AT NOWATA.

The Heinen Gasoline company No. 1 on the Paul Morris farm in 23-26-5 is dry at 2,000 feet and abandoned.

Boon, Sitz and Stager No. 6 on the Sarah Blewett farm in 23-26-5 is making 75 barrels.

AT OKMULGEET.

Fatterson and others No. 1 on the William Morton farm in 17-28-4 is good for 20 barrels.

W. H. Gray and others No. 1 on the P. M. Blanchard farm in 8-13-4 is making 15 barrels.

AT MUSKOGEE.

The Caney River Gas Company test in 16-14-19 is drilling at 1,100 feet.

Stein and Moseley are moving in tools for a test in 26-13-19.

AT MORRIS.

The test of E. W. Kimble in the southwest corner of 2-13-14 is dry at 2,000 feet and will plug back and try a shot in the 1,425-foot sand, where it had a small showing.

AT SHAMROCK.

The Gipsy Oil Company test on the Addie Brunner farm in 16-17-4 got the top of the Bartlesville sand at 2,854 feet and is drilling at 2,880 feet, with no showing, and looks like a dead one.

AT HOFFMAN.

The Naomi Oil Company is starting a test in the center of the east line of the southeast of the northwest of 5-12-14.

AT PADEN.

The Gipsy Oil Company test on the Priestly farm in 6-3-7 is drilling at 5,300 feet.

PERSONALS.

J. S. Cosden returned yesterday from a business trip to New York.

W. S. Fitzpatrick, vice-president of the Pringle Oil & Gas Co., who has been here the past two days, returned yesterday to Independence.

H. N. Greis, well-known oil producer, returned yesterday from an extended vacation in the east.

C. H. Elbert of Muskogee was in Tulsa in business yesterday.
